About our products.

Here at Crusoes we are passionate about local produce whenever possible. That is why we buy our fish daily from Brixham fish market.

Our meat comes from reliable, organic sources in Cornwall and South Devon and we buy direct from local butchers who always deliver the highest quality of meat for the time of year.

Our fruit, salad & vegetables may not always be grown in Britain due to the seasonality of this kind of produce, but we always look for the nearest and best quality.

& if we say its home made, it's because it is, we have chefs working throughout the day & night to ensure that you get the best we can offer & if you'd like to change something just let us know and we'll see what we can do!

Symbols explained;

GF - Gluten free

V - Vegetarian
